

Prateesh Sulikeri

Associate Software Engineer

+91-78923-02330 | prateesh.sulikeri@outlook.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Education

K.L.E Dr M.S Sheshgiri College Of Engineering and Technology

B.E In Computer Science and Engineering: 8.6 GPA

VTU University

Aug. 2020 – May 2024

Experience

Xoriant Technologies

Pune, India (OnSite)

Associate Software Engineer [Client: CLS Bank International]

Apr 2024 – Present

- Engineering components for a global **FX settlement platform** used by 18+ multinational banks processing **billions in daily settlements**.
- Implemented **SWIFT 2025** standards by updating schemas and message handling for **MFP/TDA** channels, improving compliance readiness and reducing settlement exceptions.
- Contributed to modernization efforts by migrating modules from **C++11** → **C++23** and refactoring services into **AWS-hosted Java microservices**.
- Built **session-based currency rejection** via rule evaluation; added **auditing** and **RDM API** flows to improve traceability and minimize manual exception handling.
- Delivered **L3 production support** for mission-critical systems to maintain settlement continuity and system uptime.

Persistent Systems

Pune, India (Remote)

Software Engineering Intern – Martian Internship Program

Jun 2023 – Aug 2023

- Completed the **Martian Internship Program**, developing a **FastAPI-based Employee Management System** on **Linux** with a **MySQL** backend as part of skilled individuals industry training.

Projects

Go-Based Rate-Limited Event Ingestor | Go, Gin, Redis, PostgreSQL, WebSockets

GitHub

- Architected and developed a **Go (Gin)** HTTP API implementing **Redis token-bucket rate limiting** with **JWT middleware**, **goroutine-driven** worker pools, and **channel-based** batching to avoid DB overload.
- **Retry-safe batch flush** logic to prevent data loss; **WebSocket dashboard** visualizing processed vs dropped events under burst and traffic simulations.

Clone Catch | Python, TensorFlow (VGG16), Keras

GitHub

- AI tool for duplicate and blurry image detection using **VGG16 feature embeddings** and similarity scoring, achieving **90%+ clustering accuracy**.

JinBo – Portfolio Chatbot | LangChain, OpenAI API, HuggingFace

GitHub

- RAG-based chatbot for my portfolio (Website) delivering sub-second responses, with **hallucination-avoidance prompts** and refusal on incomplete context.

Technical Skills

Languages: Go, C++ (11/23), Java (17)

Frameworks: Spring Boot (3.x), Angular (17/20)

Cloud, DevOps: AWS, Linux

Scripting: Shell, Python

Databases: PostgreSQL, MySQL, MongoDB, IBM DB2

Certifications

Oracle Certified Java SE 8 Associate Developer (1Z0-808) • Oracle Cloud and AI Platforms Associate Engineer • DeepLearning.AI: GenAI, LangChain, Prompt Engineering, ChatGPT API Apps

Achievements

Recognized with **XOR Champ – 2025**, Xoriant's performance award for engineers demonstrating outstanding delivery, ownership, and technical impact on **FX settlement systems** in production.
