Education

K.L.E Dr M.S Sheshgiri College Of Engineering and Technology

B.E In Computer Science and Engineering: 8.6 GPA

VTU University

Aug. 2020 – May 2024

Experience

Xoriant Technologies

Pune, India (OnSite)

Associate Software Engineer [Client: CLS Bank International]

Apr 2024 – Present

- Part of the engineering team responsible for developing and maintaining components powering a global **foreign-exchange settlement platform** used by 18+ multinational banks for multi-currency transactions worth billions daily.
- Devised an **automated setup, testing, and deployment framework** on **AWS (Lambda, S3, DynamoDB)**, cutting regression effort by 65 %.
- Engineered a **static code-analysis pipeline** using **RATS, Flawfinder**, and Python, cutting manual review time by 50% and integrating streamlined checks into the team's release workflow.
- Collaborated on modernizing the **C++11 to C++23** codebase and refactoring key modules into **Java microservices on AWS**, improving build stability and long-term maintainability.
- Contributed to a **CI/CD monitoring dashboard** (Angular 17 + Spring Boot 3) adopted by **DevOps** for release visibility and faster issue detection.
- Provided **L3 production support** for mission-critical systems, ensuring uninterrupted high-value settlements.

Persistent Systems

Pune, India (Remote)

Software Engineering Intern – Martian Internship Program

Jun 2023 – Aug 2023

- Completed the **Martian Internship Program**, developing a **FastAPI-based Employee Management System** on **Linux** with a **MySQL** backend as part of skilled individuals industry training.

Projects

Clone Catch | *Python, TensorFlow (VGG16), Keras*

- Built an **AI tool** for automatic duplicate and blurry image detection and sorting algorithm using **VGG16-based feature extraction** and similarity scoring, achieving 90%+ accuracy in clustering and cleanup.

JinBo – Portfolio Chatbot | *LangChain, OpenAI API, Python*

- Built a **portfolio chatbot** with a **RAG pipeline, GPT integration**, and context-aware memory using LangChain and vector embeddings for personalized responses.

FinBo – AI Finance Advisor | *Python, LangChain, AWS*

- Developed an **AI financial advisor** that analyzes user expenses and portfolio data to generate actionable insights, deployed with **AWS-based persistence**.

Technical Skills

Languages: Java (17), C++ (11/23), Python, TypeScript

Frameworks: Spring Boot (3.x), Angular (17/20)

AI/ML: PyTorch, TensorFlow, Pandas, NumPy, Matplotlib, LangChain, RAG Pipelines, ChatGPT API

Cloud: AWS, GCP

Databases: PostgreSQL, MySQL, MongoDB, IBM DB2

Certifications

Oracle Certified Java SE 8 Associate Developer (1Z0-808) • Oracle Cloud and AI Platforms Associate Engineer • DeepLearning.AI: GenAI, LangChain, Prompt Engineering, ChatGPT API Apps • AWS Certified Developer Associate (DVA-C02)
